

To Who it may concern:

I am listener to a local station call AIR1. It serves me as a resident of this city becuae of my profession as a Pastor. This allows me to use music to send a message to a generation I may not be able to reach. It is a rare station to find music that is both true the Bible but presents in a way that this generation can receive it.

If AIR1 were to be replaced by a LPFM it would leave a huge gap. Music today is so full of violence, sex, and expecite language that generations are just pumped so full of. AIR1 provides the sound that this generation likes but gives them a message that is full of hope, life and love.

The service provided by this station is vital and needed. Several of young people love this station and love to invite their friends to listen. If it were gone that would leave them with nothing to choose. This is the only station of its kind in this area. To lose this station would be huge. I really appreciate any time taken upon this request.

Sincerely,

Aric S. McCullough  
Pastor  
Church For Now
